

COVID – 19 UPDATES as of 2/14/2022

At this time, we will continue to follow the guidance of the CDC in the continuation of wearing masks indoors at the library as the transmission rate for Washington County is high at this time. When the transmission rate lowers in Washington County to moderate or low, the library board will re-evaluate its mask policy. The library continues to offer programs and services and are hopeful for less restrictions in the near future.

Myself, the library board, and staff, thank you for your continued support of the Library.
