Highlights

Our Drive-Up Book Drop was what all patrons talked about the most and are delighted with. Funding through The Washington County Home For Aged Women's Grant.

The Birds of Prey Wild Life Program held at our local Canal Street Farmers Market. Well over 150 people attended.

We adopted a Calf in November that has now grown into a Cow.

Her name is Penny and she is from Discovery Dairy in PA. Because of the pandemic, we held off promoting Penny because of the sharing aspect with the 3 miniature cows we have for the kids to borrow for one week.

Similar to Flat Stanley they will bring their Penny Cow everywhere with them and keep a journal of what they did together. We will also be building a cardboard barn for our Penny Cows as an activity this summer at our local Farmers Market.
